

Sonia Kainat

Wordpress Developer

I'm a WordPress developer with a deep understanding of modern web development. I specialize in building tailored digital experiences that align perfectly with each client's vision. With a sharp eye for design and a strong coding background, I create visually stunning, high-performing websites that leave a lasting impression. My goal is always to go beyond expectations delivering standout results that strengthen brands and captivate audiences.

WORDPRESS PROJECTS

<https://orloves.wpenginepowered.com/> 

- Developed a responsive website for a local plumbing company, converting Figma/PSD designs into a pixel-perfect WordPress layout. Implemented dynamic content sections and service listings using JetEngine and ACF to highlight plumbing services, installations, and customer testimonials.

<https://bsm-bh.com/> 

- Built a corporate website for a leading services and solutions provider. Structured dynamic service sections, integrated interactive layouts, and ensured fully responsive design. Focused on clean visual presentation and usability for clients across IT, automation, and office equipment services.

<https://powerroofingusa.com/> 

- Designed a family-owned roofing contractor's website with Elementor and Divi. Converted complex design layouts into pixel-perfect pages, showcasing roofing services, team profiles, and project galleries. Ensured smooth navigation, mobile responsiveness, and clear call-to-actions.

<https://biomoldinspection.com/> 

- Developed a professional, detail-oriented site for an independent inspection firm. Implemented dynamic content with JetEngine and ACF for certification listings, service details, and lab report visuals. Focused on user-friendly layouts and consistent styling across all pages.

<https://banostitching.com/> 

- Created a visually appealing WordPress website for a fashion and stitching business. Converted designs into responsive pages, integrated dynamic sections for services and courses, and ensured seamless navigation and brand-aligned styling.

WORKEXPERIENCE

WordPress Developer (Freelance / Remote)

2022 - Present,

Sargodha

Achievements/Tasks

- Developed and delivered 30+ WordPress websites using Elementor, Divi, and other page builders. Converted Figma/PSD/XD designs into precise, responsive website layouts with complete design accuracy.
- Styled WooCommerce pages including shop layouts, product grids, and checkout designs.
- Improved websites for speed, responsiveness, and browser compatibility.
